1. Add skew of 10 degrees to your transform property in both the cases in addition to the rotate property, do you observe any visible changes?

1 / 1 point

- ☒ Yes, there are changes
- ☐ No changes

Correct

That's right! The box items should skew 10 degrees in the upper half for all items.

2. If you change the values inside the rotate function from '360' to '720' in both places, what will be the visible changes?

1 / 1 point

- ☒ The flips will happen double the times
- ☐ The flips will happen half the times
- ☐ There will be no change in the output

Correct

That's correct! The rotation has to happen twice the amount in the same time.

3. Does the size of the box items change with changes in viewport?

1 / 1 point

- ☒ Yes
- ☐ No

Correct

That's correct! The box items should shrink when size is reduced.
