2. When are you most likely to be asked about your Softskills? `1 / 1 point`

○ During a technical interview.

○ During a quiz.

◉ During a screening call.

✓ **Correct**
That's correct! The screening call is designed to identify whether a candidate is a good fit for a company's culture. It is done before any competency is established.

3. What is the purpose of the online coding assignment? `1 / 1 point`

○ To help you get into the mindset of working for this company before you start

○ It is to get you to solve some company problem

◉ It is designed to give you an opportunity to show what you can produce in an unpressurized environment that mimics potential job activities you will be asked to undertake

✓ **Correct**
That's correct! The role of the coding assignment is to demonstrate your thought process and your hands-on coding ability.

○ During a quiz.

◉ During a screening call.

✓ **Correct**
That's correct! The screening call is designed to identify whether a candidate is a good fit for a company's culture. It is done before any competency is established.

✓ **Correct**
That's correct! The role of the coding assignment is to demonstrate your thought process and your hands-on coding ability.

4. Pseudocode is a structured way to engage with code. `1 / 1 point`

○ True

◉ False

✓ **Correct**
That's correct. Though using pseudocode can help you find the structure in code, it has no formalized way or structure for engaging with it.

5. When should you test your code? `1 / 1 point`

◉ Continuously as the project progress.

○ Whenever the application crashes to identify what the issue is.

○ At the end.

✓ **Correct**
That's correct. Ideally, the code should be tested as you go.
