1. Did you try changing the width of the viewport? Was there a visible change in the dimensions of the output?   `1 / 1 point`

○ No, did not change the viewport size.

○ Yes, but no visible changes.

◉ Yes, and there were changes.

> ✓ **Correct**
> Correct! That's the expected behaviour of the output.

2. Which combinator type among the four you have covered was not used in the exercise?   `1 / 1 point`

○ Child combinator

◉ Descendant combinator

○ General sibling combinator

○ Adjacent sibling combinator

> ✓ **Correct**
> Correct! This type has a space between the two elements and was not used.

3. When you change the width of the viewport the height should also change.   `1 / 1 point`

◉ True

○ False

> ✓ **Correct**
> Correct, the grid size must change both the width and height of the viewport.
