✔ **Congratulations! You passed!**

Grade received 100%   To pass 80% or higher

---

1. Each square block in a table is called a:

1 / 1 point

○ box

◉ cell

○ index

○ unit

✔ **Correct**
Correct! That is the correct term.

---

2. What attribute can you add inside an audio tag to enable player controls such as the pause and volume buttons?

1 / 1 point

◉ controls

○ src

○ source

○ audio

✔ **Correct**
That's right! If you want to enable audio player controls such as a play, pause and volume buttons, you can add the controls attribute.

---

3. While using the canvas element from the HTML file inside your JavaScript file, you pass the value of the id attribute of the canvas to the `document.getDocumentById()` function in your JavaScript code.

1 / 1 point

○ True

◉ False

✔ **Correct**
That's right! The function that you pass the ID attribute to is 'document.getElementById()'.

---

4. Which of the following attributes can you add to an iFrame to improve the security of the web page where the iFrame is added? Choose all that apply.

1 / 1 point

☑ allow="camera 'none';"

✔ **Correct**
That's right! The allow attribute will turn the camera off because it limits which browser features the iframe can access.

☐ style="border:none;"

☑ allow="microphone 'none';"

✔ **Correct**
That's right! The allow attribute will turn the microphone off because it limits which browser features the iframe can access.

☑ sandbox=""

✔ **Correct**
That's right! Sandboxing will help add an extra set of restrictions such as preventing files from being downloaded and preventing popup windows.

---
